

### Order 1

voice  
speech  
superior temporal  
listening  
temporal gyrus  
sts  
speech perception  
spoken  
superior  
temporal sulcus

### Order 2

voice  
precuneus  
temporal  
speaker  
temporal gyrus  
spoken  
heard  
sounds  
comprehension  
speech perception

### Order 3

cuneus  
v1  
visual  
early visual  
primary visual  
lingual gyrus  
occipital  
lingual  
visual cortex  
integrate

### Order 4

anterior insula  
insula inferior  
inferior frontal  
insula  
executive  
inferior  
frontal  
pole  
frontal gyrus  
asd

### Order 5

integrate  
spatially  
anterior hippocampus  
occipital  
recollection  
orbital  
hippocampal  
visual stream  
visual cortex  
visual

### Order 6

putamen  
face ffa  
ffa  
subsequent  
fusiform face  
images  
selective  
basal ganglia  
ganglia  
basal

### Order 7

hippocampal  
hippocampus  
amygdala hippocampus  
anterior hippocampus  
medial temporal  
parahippocampal  
mtl  
temporal lobe  
parahippocampal cortex  
lobe

### Order 8

face recognition  
recognition  
face  
fusiform face  
face ffa  
ffa  
faces  
fusiform gyrus  
hippocampal  
medial temporal

### Order 9

monitoring  
error  
conflict  
task  
frontal cortex  
read  
errors  
insula anterior  
color  
demands

### Order 10

posterior insula  
insular  
extrastriate  
insular cortex  
lateral occipital  
letter  
occipital  
visual  
painful  
insula

### Order 11

memory encoding  
subsequent  
hippocampus  
hippocampal  
associative  
memory  
lobe mtl  
mtl  
retrieval  
episodic

### Order 12

angular gyrus  
angular  
anterior temporal  
temporal lobes  
default  
default mode  
network dm  
self referential  
dmn  
default network

### Order 13

parahippocampal  
navigation  
objects  
parahippocampal cortex  
parahippocampal gyrus  
anterior hippocampus  
encoding  
memory encoding  
fusiform  
face ffa

### Order 14

inferior frontal  
inferior  
words  
pseudowords  
frontal gyrus  
semantic  
reading  
chinese  
word  
orthographic

### Order 15

motor task  
sensorimotor cortex  
contralateral  
hand  
sensorimotor  
finger  
primary  
spatially  
tapping  
index finger
